SOCIAL AND SCHOOL AFFAIRS. W. C. T. U. Convention-Much Sickness Prevailing.

Special Correspondence, Springville, Utah Co., Oct. 27.-Last night a happy surprise was perpetrated on Father Manwaring by his co-workers in the First ward Sunday school. Brother Manwaring is a long long and

faithful laborer in the Sunday school. Supt. A. J. Southwick was master of ceremonies and songs, recitations, senti-ments and speeches were given for the entertainment of all. Brother Clegg, Counselor Strong, and Stake Superintendent Eggertsen made remarks fitting to the occasion. Lunch was served during the evening.

Mrs. Ella Cederlund was also surprised a few evenings since by friends who took absolute possession of her home during her absence and spread a long table with delicious viands. As she entered her home she found it well filled with many from Springville, Ma-pleton and Provo who had come to practically demonstrate the fact that she was "evergreen" in their thoughts. A delightful evening was spent and as the company bade good night they left her cupboards full of good things. The W. C. T. U. is holding a conven-tion here of two days' duration. A

#### STARTS WITH A COLD.

atarrh is a Lingering Cold Which Refuses to Yield to Ordinary Treatment. Catarrh usually starts with a cold in the head and if left unchecked in this climate, rarely gets well of itself.

As fresh cold is taken the disease spreade, getting deeper and deeper, creeping along the mucous membranes from nose to throat, from throat to windpipe, from windpipe to bronchial tubes and from honorabil tubes and from honorabil tubes to lung. tubes and from bronchial tubes to lung

The mucous membranes all connect, one with another. Hence it is easy to spread from one part to another lined with this same membrane. This is why catarrh in the head soon effects the throat and finally the stomach itself, bringing on chronic catarrh of the stomach, which is a most obstinate

form of dyspepsia.

Everybody is now well agreed that catarrh is a blood disease and not a local one, and the attempt to cure by local applications simply gives temporary relief from the purely local symptoms without the remotest effect in staying the progress of the disease.

There is a new preparation recently offered to the public that is apparently destined to do away with every other form of catarrh treatment. This new remedy is not a secret patent medicine, but is a large, pleasant tasting tablet composed of Sauguinaria, Eucalyptol, Guaiacol, Hydrastin and other valuable and harmless specifics, which are taken to the control of the cont

#### SCHOOL NOTES.

The Springville schools have an enrollment now of 720, and the work that is being done reflects credit on the eachers. Last Monday an overflow department was started with Rosa Boyer as teacher. Through the efforts of Principal L. E.

Eggertsen and the teachers, the school has a piano to assist in the musical work being done in the district. A musicale was held the other evening, at which Prof. Stanley Partridge warmed up the instrument and \$12.30 was reeived to help the teachers pay for the piano. The class of 1901, the 8th grade, is or

ganized with Lyman E. Hyde as president, Lafael Roylance, first, and Azua Peterson as second vice presidents. The class held their first meeting last night at which certain members dis-played their talents. The organization is to give them practice in taking charge of meetings and become accustomed to appear in public. Much interest is manifested.

The library room is now fitted up on the third floor and the pupils have ac-ces to some 500 volumes during their study periods.

dust of defiance.

When the yell was repeated a few times and the words "Butte," "High" and "School" were discerned the expression of terror vanished and broad smiles wreathed the countenances of Salt Lake's citizens. It was only the Butte High school team and a few dozen rooters giving vent to their ex-uberant feelings by their war cry. And a husky lot they appeared to be. ## Sporting Notes.

Oscar Julius, the bicycle racer, says there will be a meeting on Monday night to consider the question of erect ing a twelve-lap indoor bleyele track on the Gallacher property corner of seventh South and Fourth East street. The estimated cost of the structure which it is said will be heated by steam, is \$15,000. The men who are relied upon for the sinews of war apparently take a less hopeful view of it than does Mr. Julius. The gentlemen who is expected to put up the most of the cash said to the "News" today: "It is very easy to the "News" today: "It is very easy to make a hot air talk, but it takes money to build a bleycle track, and I know nothing of the project beyond what Mr. Julius has told me."

# Blinding Headaches

"For two years I endured the tortures of nervousness, headache, muscular weakness and loss of appetite. My weight was only 76 pounds, while I had weighet over 160 pounds. I was subject to severe headaches, mostly in the morning, and at times I was so dizzy that I could scarcely distinguish one object from another.

"I spent a great deal of money experimenting with different physicians, but none of them gave me any relief. Last winter I got so much worse that I was obliged to go to a hospital for treatment, and after six weeks of care and skilful attention I was but little, if any, better. After leaving the hospital I began to take Dr. Williams' Pink Pills for Pale People upon the recommendation of a friend who had been benefited by them, and they have done more good than all the doctors combined.

"I had only taken a few doses when I began to feel better and within one week had gained three pounds. I could enjoy my breakfast, which was something I had not been able to do for a long time.

"I have so much confidence in Dr. Williams' Fink Pills for Pale People that I recommend them whenever an opportunity presents itself, and all those who have used them speak very highly of them."

COLONIA PACHECO, MEXICO. Fire Destroys the Home of Patriarch Henry Lunt-Prosperous Colony.

Special Correspondence. Colonia Pacheco, Chihuahua, Mexico, Oct. 17 .- On Monday, the 15th inst. about 5 o'clock p. m., our peaceful little town was aroused with the alarm of fire, Patriarch Henry Lunt's house, at his ranch at Carrollis, about one fire and burned to the ground. They were successful, however, in saving everything of much value except some books and dishes and other small things that were in the house, which was a five roomed frame, lathed and plastered inside and well finished for this country. The loss will reach over \$500. The origin of the fire cannot be accounted for. Brother Lunt is getting along in years-77-and has a large family therefore will feel the weight of this misfortune, but the good people of Pacheco will be on hand to render him any assistance in their power to help rebuild his home, as he is greatly respected by all, having labored long and hard for the cause of truth Our meetings here are well attended; our Sunday school and other associa-

tions are all in good running order and we also have a good day school. We are having lovely weather, but frosty nights, the first this fall was on

October 8th. Owing to the drouth during the fore part of the summer our crops are below the average. We have excellent grass so the stock is doing mill here now running, which will, no doubt, make considerable work for the people. We have about thirty-five families here and are taking twenty-seven copies of the Descret News besides other Church works.

## HYGIENE FOR THE SEA-SIDE.

Once upon a time we were taught that a bather should always become well cooled off before he went into the water. Now he comes to the shore, after a tennis match or a game of golf, or a spin on his wheel, and plunges at once into the waves. The old conservative is shocked, but the modern physician approves, and gives his reasons for it. After active exercise the blood for it. After active exercise the blood is in full circulation, the heart is doing its best, and the shock of the cold dip has only a tonic effect that strengthens the walls of the blood vessels by the quick contraction that follows the prevlous expansion. Some doctors even de-part so far from received traditions as to advise a course like this to persons suffering from heart weakness asserting that the shock acts on the heart like the spur upon a horse, and stimulates it to fresh effort. Such treat-ment should hardly be adopted, howver, without a physician's specific ad.
